Author Announcement: One author registration will cover the publication expenses of only ONE accepted paper. For each additional accepted paper associated to the same registration, a $100.00 USD fee will be charged. In the case no registration has been received and correctly processed to cover the paper publication, the conference organizers will contact the authors before the paper is removed from the proceedings.

Presenter Fees: Only IEEE Member or Non-member fees are allowed to cover the publication of an accepted paper. To qualify for member rates, the membership number must be provided in the registration form. Student registration fees cannot be used to guarantee the publication of an accepted paper. If the only author registering to cover the paper publication is a student, he has to pay the appropriate Member or Non-member fee. Members to whom the society bylaws grant special discounts (e.g., Students, Life members of the IEEE) cannot use the discounted rates to cover the publication of an accepted paper, they have to pay the Member fee.
